Auch Jobe lüftet nun das Geheimnis und präsentiert die Designs für 2018. Wer also noch ein Weihnachtsgeschenk sucht, zumindest die Gutscheine kann man nun mit dem neuen Design schmücken. ;-)

Jobe Wake Park boards – 2018 collection

With the end of the year coming up, Jobe already starts the excitement for the new season. They just released their new Wakeboard collection 2018 with some stunning new content; get ready to push your limits. Their 2018 line-up contains 5 boards. A short summary:

Allrounders: the Breach & Conflict

The perfect blend between flex and strength: Julian Cohen's Pro Model the Conflict. It's a constant performer: stable yet playful due to its three-stage rocker and crossover channels. Dominik Guhrs' promodel the Jobe Breach stands for traction and speed. Combined with the flex in tip and the tail of this board makes it the perfect blend for a champ.

Railboards: the Pitch & Concord/Armada

The Pitch, Concord, and for the shredettes: the Armada, are the real rail rippers. These boards have a wooden core to ensure maximum flex. Want extra speed and traction? Choose for the Pitch. However, the Concord and Armada are the thinnest and flexiest in our range.

Ari Blanik - Europameister 2017

Check out the official release video now.

Wie sich die neuen Boards dann auf dem Wasser machen, das könnt ihr sicher bei dem einen oder anderen Test herausfinden.
